

Halloween Costume Planner!

Are you going to dress up for Halloween? Do you know what your costume is going to be? Whether you are making a costume by yourself or with the help of a parent or another adult, or if you are planning on using a store-bought costume, there's still a lot to prepare for.

Use this printout to plan your costume. First, make a picture of your idea. Read the tips and write down a list of any additional pieces of clothing or items you need to find before you are ready for trick-or-treating on Halloween night!

Sketch your costume

- If you are going to be wearing a mask, make sure that the eyes holes are large enough for good peripheral vision.

- It will be dark at night, and hard to see sometimes. Make sure that any costume parts that hang down or drag to the ground (like capes or bandages) won't get in the way when walking, which could cause you to trip and fall.

- If you are carrying a prop, such as a plastic scythe, a sword, or pitchfork, check to see that the tips are smooth and soft and flexible enough to not cause injury if they are fallen on.

- You should plan on taking your own flashlight. If you are planning on also carrying a candy bag (and a prop), make sure that you have pockets, and perhaps a strap on the flashlight, so you can hold everything safely.

Things still needed to complete your costume:
